pavement markings

PROSTRIPE +PLUS

WATERBORNE ACRYLIC TRAFFIC PAINT

PROSTRIPE MX

HIGH PERFORMANCE TRAFFIC PAINT

Features	PLUS	MX	Benefit
Waterborne Traffic Paint	✓	✓	Durability of new generation waterborne resins with easy equipment cleanup.
Meets Federal Specifications TTP-1952-E Type I,II	✓	✓	Authorized use on markings of high volume Federal roadways and airports.
Lead Free	✓	✓	Greener manufacturing, application and disposal.
Low VOC's	✓	✓	Significantly reduced volatile organic compounds released in the atmosphere.
High Solids	✓	✓	Less water and more solids providing better coverage rates.
Fast Dry	✓	✓	Reduces tracking by inadvertent traffic. Less business or traffic interruption.
High Pigment Content	✓	✓	Reduced fading, bleed through with brighter and better opacity and hide.
Airless Stripper Formulation	✓	✓	Designed for walk behind airless stripers as well as long line striping equipment.
Innovative Hybrid-Resin Formulation		✓	Enhances Asphalt and Concrete adhesion. Better glass bead retention. Longer service life.
Exclusive Hardened Silica Blend		✓	Resists tracking of dirt, dust and debris. Adds protection from wear, scuffing, petroleums and UV damage
Superior Cohesion & Adhesion		✓	Provides for a flexible pavement marking with reduced fracturing and enhanced adhesion to the pavement surface.
Advanced Color Control & Retention		✓	Brighter initial and lifetime color with a special UV inhibitor. Safer more visible markings with a longer life.
Improved Bead Retention		✓	Greater and longer lasting pavement marking retroreflectivity.
Enhanced Dry-Through Resin		✓	Reduction of damage due to early rain shower wash out.
